LETTERS**Donovan's Dealings**

FOIAb3b

To The Editor:

Just this morning I heard that Mr. James Donovan has stated that the prisoners for goods deal would, when complete, greatly improve relations between the United States and Cuba.

Just what are Donovan's intentions? Is he trying to arrange for the release of our friends, the patriotic Bay of Pigs invaders, or he also arranging for a co-existence with Communist Cuba? If this is so, Communist Cuba will have all the time it needs to subvert and take over all of Latin America.

His statements worry me, for Donovan is not merely a U.S. citizen. It is known that he has the blessings for these dealings from very important officials in Washington.
